

Learning materials for Ebenezer Preparatory

THE Eternal Life Gospel Mission, a local branch of the Eternal Life Ministries International in the US, has presented a number of assorted learning materials to the Ebenezer Preparatory School at Kasoa in the Central Region.

The materials, which are made up of toys for the nursery division and other learning and playing aids, are to assist the school in its effort to improve the level of education among children in the rural community.

Also among the items were a number of pairs of shoes and sandals for the needy pupils who cannot afford to buy footwear.

Rev Stephen Douglas Kwakye, President and Founder of the church, who presented the items, said the

donation is in line with the church's policy of making sure that every child of school-going age is given access to education for him to become a responsible citizen in future.

He thanked the North Port Baptist Church, in the US for its contribution which made the donation possible.

Mr George Atiemo-Offei, Proprietor of the school, thanked the donors for the kind gesture and called on more benevolent associations to come to the aid of the school.
